ALICE IN GREEN COUNTY
2018 Point-in-Time Data

Population: 36,864 • Number of Households: 15,098
Median Household Income: $62,699 (state average: $60,773)
Unemployment Rate: 2.2% (state average: 3.2%)
ALICE Households: 22% (state average: 23%) • Households in Poverty: 8% (state average: 11%)
Sources: ALICE Threshold, 2018; American Community Survey, 2018

How has the number of ALICE households changed over time?
ALICE is an acronym for Asset Limited, Income Constrained, Employed — households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). While conditions improved for some households from 2010 to 2018, many continued to struggle, especially as wages failed to keep pace with the cost of household essentials (housing, child care, food, transportation, health care, and a basic smartphone plan).

What types of households are struggling?
In the past few decades, there have been major shifts in household composition. The share of American adults who have never been married is at a historic high, as is the number of senior households. There is also a growing number of people who live alone or with roommates, and an increasing share of grown children who live with their parents. Yet all types of households continue to struggle: ALICE and poverty-level households exist across all of these living arrangements.

Households by Income, Green County, 2010 to 2018

Household Income by Household Type, Green County, 2018

Sources: ALICE Threshold, 2018; American Community Survey, 2010-2018
Why do so many households struggle?

The cost of household basics outpaces wages...
The Household Survival Budget reflects the bare minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, technology (a smartphone plan), and taxes. It does not include savings for emergencies or future goals like college or retirement. In 2018, household costs were well above the Federal Poverty Level of $12,140 for a single adult and $25,100 for a family of four.

..and the labor landscape is challenging for ALICE workers

A breakdown of the labor force shows a small portion of adults (16 years and older) who were unemployed and a large number who were working in 2018. However, a significant portion of full- and part-time workers were paid by the hour; these workers were more likely to have fluctuations in income and less likely to receive benefits. There was also a high number of workers outside of the labor force (people who are not employed and not looking for work), which helped keep wages low: When more workers are available, employers have less incentive to raise wages to attract employees.

### Labor Status, Population 16 and Over, Green County, 2018

Note: Data for full- and part-time jobs is only available at the national level; these national rates (51% of full-time workers and 75% of part-time workers paid hourly) have been applied to the total county workforce to calculate the breakdown shown in this figure. Full-time represents a minimum of 35 hours per week at one or more jobs for 48 weeks per year.

How many families with children are struggling?

Children add significant expense to a family budget, so it is not surprising that many families with children live below the ALICE Threshold. Though more families are headed by married parents, families with a single parent are more likely to have income below the ALICE Threshold.

Families With Children, Green County, Wisconsin, 2018

What are the differences in ALICE households by age?

There are ALICE households in every age bracket. The youngest group (people under 25) is more likely to be in poverty, and both the youngest and the oldest (people 65 and older) groups are more likely to be ALICE.

Dear Green County Neighbors and Friends,

WE can change the story! During the unprecedented times of COVID-19, we came together, we worked together, we took action! This past year was unlike any other and we have many hometown heroes who have worked tirelessly to keep our communities safe and thriving. We are so very grateful for our health care workers, our public health professionals, our childcare providers, our teachers, our first responders, and so many more who stepped up in big ways last year! I am proud to share that these community heroes are this year’s honorary campaign co-chairs! Thank you for coming together when we needed you most. Thank you for helping to take care of our communities.

So, how can we change the story? We can come together, united in our desire to help each other and to make our communities stronger. We can mobilize the best resources and inspire others to join us. We need people who know that within all of us is a desire to belong and to do good. We need people who recognize the power that comes from a shared purpose. We need people who understand we are always stronger together than we are alone. We need YOU! People like YOU make our communities great!

When you support United way, you’re not just supporting many local community programs and organizations, you are also supporting the collaborative work that is happening each and every day – the work to assess our community needs, the work to develop an action plan, and the work to put that plan into action!

When you support United Way, you are helping our children grow and thrive. United Way works collaboratively with many community partners to provide increased access and exposure to early, high quality educational opportunities for our kids. Together, we are creating opportunities for our children to succeed and setting them up to have bright futures!

When you support United Way, you are helping our neighbors connect with the critical resources they need to be able to stay in their homes, maintain employment, and continue to be an integral part of our community, our workforce, and our economy. Together, we are providing opportunities for people to move forward from uncertainty to stability.

When you support United Way, you are helping to ensure everyone in our community has enough food to eat, a place to sleep, access to dental care, and access to mental health and other preventative healthcare services. Together, we are creating communities where we can all thrive and where everyone feels welcomed, valued, and included.

When you support United Way, your contributions stay right HERE - in Green County - and the help that you provide touches the lives of people all around you. Please take a few minutes to learn more about United Way and the work we are doing all throughout the county. If you have made a donation in the past, THANK YOU! Please consider continuing your support by making a contribution to this year’s campaign. If this is your first time considering a donation, there is no better time than now! It is only with YOUR help that the United Way can fight for the health, education, and financial stability of every person in Green County. Together, by celebrating our strengths, embracing our diversity, and working collaboratively to address community issues, we can do what no one person or organization can do alone. TOGETHER we can LIVE UNITED!

YOUR DONATIONS GO FAR IN HELPING US BE A COMMUNITY UNITED!

FOOD INSECURITY
Every donation provides support for food pantries and school backpack programs in all Green County communities.

BASIC NEEDS
Every donation provides support for rent, utility assistance and the critical resources people need to be able to stay in their homes, maintain employment, and continue to be an integral part of our community, our workforce, and our economy.

HEALTH AND WELLNESS
Every donation provides support for healthcare, dental care and mental health needs.

CHILDREN AND YOUTH
Every donation provides support for access to high quality childcare, education, mentoring programs, and social and emotional support.

SUPPORT FOR VICTIMS OF ABUSE
Every donation provides support for prevention education, support and treatment for victims of domestic abuse and sexual assault.

COMMUNITY PROGRAMMING
Every donation provides support for important community programs like recreation, theater and arts that make our communities vibrant.
